Keywords

- Beware of broad match
- Mine your SQR's for exact match opportunities & negatives
- Keep your adgroups tight
- Use high-performing keywords in your ad copy

Geography

- Choose your geography carefully
- Comb user location reports for geographic trends
- Exclude underperforming geos
- · Use bid modifiers to capture demand or control CPL

Devices

- Look for variances in performance data by device
- Choose your primary device based on the data
- · Use bid modifiers to optimize your metrics by device

Ads

- Align ads with keywords
- Take advantage of all extensions:
 - Call
 - Location
 - Callout
 - Reviews & Ratings
 - Sitelinks
- Test continuously

Behavior

- Look at time factors (time of day, day of week)
- Add dayparting or use bid modifiers to capitalize on peak times and exclude or deemphasize lower-performing times
- Use audience data (remarketing lists, customer data)

Where is all of this going?

- Paid Search is increasingly:
 - Mobile
 - Targeted
 - Personalized
